

COLLEEN MCGUCKIN

Web Developer

EXPERIENCE

ETHNIO - Los Angeles CA
Full Stack Developer

JULY 2017 - PRESENT

- Engage with customers a regular basis to design features, resolve bugs, and gain insight into usage.
- Help design & develop a marketing research study management system. Major contributions include updating a scheduling interface, designing a robust notification system, and assisting with the rebuild of a digital incentive payment system.
- Manage and mentor an intern, including pair programming, code review, workflow basics (including git), code style, and architectural decision making.

THE TRACKING BOARD - Los Angeles CA
Full Stack Developer

OCTOBER 2015 - JULY 2017

- Contribute to proprietary product development of an integrated job board, entertainment news, and database system.
- Collaborate on code reviews, design ideation, and bug hunting.
- Assist in architecting, developing, designing, testing, debugging, and maintaining tlaunchpad.com - an ecommerce based script submission system for contests and feedback. Major contributions include constructing an administrative panel for all resources, view design and development, implementing AJAX search queries, and writing tests.

INDEPENDENT CONTRACTOR - Los Angeles CA
Web Developer Graphic Designer & Tech Consultant

AUGUST 2015 - AUGUST 2017

- Architect design & implement solutions for small businesses.
- Create original marketing materials & specialized graphics.
- Consult to solve organization level problems using technology.
